comptroller Myers has been looking over his books, and he finds in them excellent reasons why the people should vote the Demceratic ticket this year. Figures are usually dry, but these particular figures, in the words of Horace Greeley, furnish "mighty interest-

The following table shows the amount of tax for State purposes which New York County was called upon to bear during the fiscal years 1889-1800, 1890-1891, 1891-1892 and 1892-1893:

The total tax levies in New York County for the years 1891 and 1892 was 467.480.

905.44. Of this amount \$5,927,045.44, or only 8 7-10 per cent. was for State purposes. The average of the tax levies of New York County for the last two years is \$53.724.

505.72. The average annual saving of two years of Democratic legislation over the two preceding years of Republican government has been \$1.840,706.94. Thus this saving has amounted to over 5 per cent. of the entire tax levy, and is more tuan \$1 a year for every man, woman and child in New York County.
